500,000+	$60,000 MAX

Verified Unique Viewers

A Verified Unique Viewer is counted when a person watches 3 or more paid episodes of your show. Each person counts as 1 Verified Unique Viewer for the entire season, regardless of how many additional episodes they watch.

Free episodes do not count toward this requirement.

Payout Structure

Payouts are not cumulative or stacked. Your final payout is based on the highest verified unique-viewer threshold reached during the measurement period.

- **Earn up to $60,000 per season. 500,000+ qualifying views** unlock the maximum payout.
- Only verified views of subscription episodes by paying subscribers count toward qualifying views.
- Free episode views do not count toward filmmaker payouts.

Our goal is to reward filmmakers for creating engaging relationships and marriage entertainment that paying subscribers love to watch.

All payouts are subject to Relacion's filmmaker agreement and view-verification requirements.
